

المخلص

تُعدُّ الأمثال من المصادر المهمّة لإضاءة جوانب كثيرة من حياة المجتمعات لما يتمتّع به النصّ المثلي من خصائص جعلته بعيدًا عن الشكِّ والتّحريف وذلك باعتراف عميد الأدب العربي ورائد نظريّة الشكِّ في الشعر الجاهلي الدكتور طه حسين، ممّا جعلها مصدرًا صالحًا وموثوقًا به لدراسة أحوال الأمم ومعرفة مدى تطوّرها.

Abstract

Proverbs are one of the significant sources that shed light on many aspects in the life of societies due to what the proverbial text has of features that make it away from doulot and distortion and this has been main tained by doctor Taha Hussein head of arabic literature and the pioneer of skepticism in ignorant (uneducated) poetry which makes them a liable and rediable source for studying the status of natiuous and knowing their developoment. The present dissertation (Methoelology of Writing in Books of Proverbs till the End of the Sixth Century A . H .) has come to give a room for research and make the results more accurate.
